Enclosure: A press release dated March 13, 2006 announcing that STMicroelectronics N.V. announced the pricing of €500 million Floating Rate Senior Bonds due 2013 in the Euro Debt Capital Market.

PR No: C2505C

## STMicroelectronics N.V. Announces Pricing of its Inaugural Senior Unsecured Eurobond Offering

**Geneva, March 13, 2006** - STMicroelectronics N.V. (NYSE:STM) today announced the pricing of €500 million Floating Rate Senior Bonds due 2013 in the Euro Debt Capital Market. These bonds will pay interest quarterly at a rate equal to three-month Euribor plus 40 basis points.

The offering complements the recent placement by STMicroelectronics N.V. of US \$927 million of Zero Coupon Senior Convertible Bonds due 2016 as part of the refinancing strategy of its existing Zero Coupon Senior Convertible Bonds due 2013, which are potentially redeemable by the holders on August 5, 2006, maintaining the current high liquidity (the Company reported in excess of US\$ 2 billion in cash and cash equivalents and a net cash balance of US\$ 225 million as of December 31, 2005). To the extent that ST does not use the proceeds for the repayment of amounts due under the 2013 Bonds or for repurchases of the 2013 Bonds, ST will use the proceeds for general corporate purposes. In the interim, ST expects to invest the net proceeds of this offering in short-term, income-producing investments.

The Bonds are being issued by STMicroelectronics Finance B.V. and guaranteed by its parent company STMicroelectronics N.V. whose current ratings are A3 Negative Outlook by Moody's and A- Stable Outlook by Standard & Poor's. Application will be made to list the Bonds on the Luxembourg Stock Exchange.

Commenting on the issue, Carlo Ferro, ST's Chief Financial Officer, said, "We are pleased with the strong demand we have had for our debut issue in the Euro bond market. It reflects the strength of our product portfolio, solid balance sheet and free cash flow generation. Having successfully issued convertible notes recently, we have accomplished in a timely fashion our plan of refinancing with a combination of equity linked and straight debt. Between the two offerings, we raised more than \$1.5 billion at 2.1% average cost of funding, introduced ST to the European debt capital market and met our key objective to refinance friendly to our shareholders, with no further equity dilution.
